

GROW SOLAR

ST. LOUIS

THINKING ABOUT GOING SOLAR?

Residents throughout St. Louis City & County have an opportunity to participate in **Grow Solar St. Louis**, a program combining volume purchasing with community education to make solar more accessible and affordable. Home and commercial property owners may participate in this program.

Interested property owners can start by attending any of the free informational Solar Power Hours. They'll learn about the basics of solar, its financial implications for a household, and how the solar group buy program works. After the session, get a free, no-obligation site assessment from the competitively-selected solar installer. Participants have until November 15, 2019, to decide whether to get solar through the program.
